

NDIFREKE UDOH

Software Developer | Frontend Web Developer

CONTACT

Phone: 09032800826
Email: frekenobles@gmail.com
Address: Port Harcourt, Rivers State
Portfolio: <https://aureus-gamma.vercel.app/>
GitHub: <https://github.com/FrekeNobles>

CAREER OBJECTIVE

Frontend Developer with hands-on experience building production-grade web applications using React.js, Next.js, TypeScript, JavaScript, and Tailwind CSS. Skilled in developing reusable components, integrating APIs, managing application state, and writing maintainable, testable code, with additional full-stack experience using Node.js and Express.js.

TECHNICAL COMPETENCIES

Languages: JavaScript, TypeScript, HTML, CSS
Frontend: React, Next.js, Vue.js, Svelte, Tailwind CSS
Backend & APIs: Node.js, REST APIs
Testing: Playwright, Vitest
Data & Real-Time: WebSockets, Chart.js
Web Technologies: Progressive Web Apps (PWA),
Responsive Design, API Integration
Tools: Git, GitHub, Vite, Pinia, Figma

PROFESSIONAL EXPERIENCE

Frontend Developer

2025 - Present

QuanVaulte Technologies

- Develop and maintain responsive web interfaces for technology education products and digital platforms using modern frontend technologies.
- Translate product requirements and design concepts into reusable, accessible, and user-focused interfaces.
- Collaborate with team members throughout the software development lifecycle, including development, debugging, testing, deployment, and iterative improvements.
- Participate in identifying and resolving technical and interface issues to improve product functionality and reliability.

Frontend Developer

2023 - 2025

Fixit Labs

- Built and shipped production-grade web applications using React.js, Next.js, TypeScript, and Tailwind CSS, developing reusable components and scalable frontend architectures across multiple business products.
- Integrated REST APIs and implemented complex frontend workflows including authentication, form validation, data fetching, state management, and dynamic user interfaces.
- Improved application performance through component optimization, efficient state handling, code organization, and responsive rendering, delivering reliable experiences across devices.

Netizens ICT

- Assisted in developing responsive web interfaces using HTML, CSS, JavaScript, and React.js, converting designs into reusable UI components.
- Supported REST API integration, data rendering, form handling, navigation, and interactive frontend features.
- Debugged frontend issues and improved UI responsiveness while using Git and established development practices.

SELECTED SOFTWARE PROJECTS**Zylo — Instant Messaging Application**

React | WebSockets | Vite | TypeScript

- Developed a responsive chat application using React and TypeScript, applying component-based architecture and reusable UI patterns.
- Designed an intuitive messaging interface focused on usability, responsiveness, and maintainable code.

HabitMe — Habit Tracking Progressive Web App

Next.js | TypeScript | Tailwind CSS | PWA

- Developed a streak-enabled habit tracking Progressive Web App using Next.js and TypeScript, with offline functionality and an app-like user experience.
- Built responsive, reusable interfaces using Tailwind CSS and component-based architecture.

etokiAI — Webpage Summarizer

JavaScript | REST API | PWA

- Developed an AI powered webpage summarization application using JavaScript and REST API integration to process and present content efficiently

ViewOps — Operations Monitoring Dashboard

Vue.js | WebSockets | Chart.js | Pinia

- Designed and developed a dynamic operations monitoring dashboard using Vue.js, with real-time data updates through WebSockets and interactive data visualizations using Chart.js.
- Implemented Pinia for application state management, creating a responsive and structured interface for monitoring operational information.

EDUCATION

Bachelor of Engineering (B.Eng.), Polymer Engineering

2021

Federal University of Technology, Owerri

Second Class Upper Division

CERTIFICATION AND PROFESSIONAL TRAINING

- **Backend Development** — TechCrush, 2026
- **Frontend Development** — HNG, 2026
- **Full Stack Web Developer** — Netizens, 2025
